

Now in Colorado

Is your organization fit for the digital transformation and structural change?

A world-famous seminar concept with horses for "Leadership of the Future" and "Building High Performing Teams" starts now in Colorado

"It is in your moments of decision that your destiny is shaped." – Tony Robbins

Based on a study from the World Economic Forum 54% of the employees require significant training and retention measure.

We enable innovative companies to promote an unique opportunity for their employees and successfully prepare for the structural change. We are internationally active in inspiring employees and executives in company such as Daimler, Cisco, PayPal, McKinsey, BASF. From Frankfurt to Johannesburg, from Bangalore to San Francisco, thousands of employees have been successfully trained based on the **HorseDream®** methodology. If you want to increase the emotional intelligence and build high performance teams you are on the right track with us!

The **HorseDream** Seminar concepts is tailored to Corporates and Organizations. With over 350 Coaches in 5 continents in 37 countries it is a guarantee for the unique quality and focus on the companies' success.

Leadership of the Future – Improving leadership skills through authenticity
Leadership qualities are directly related to an authentic appearance and the recognition of how employees can be used in a targeted manner according to their skills and strengths to motivate them to achieve top performance without burning them out. Learn how to effectively manage your team with less stress and energy.

High Performing Teams – going beyond limits as a unit
This team experience offers a special opportunity to build and strengthen trust, develop team spirit and allow team members to find their place. The team receives an initial impulse to ensure long-term motivation, strengthen the team members' personality and capabilities and increase their commitment to the company/organization.

Successful Transformation – change with confidence and motivation
Change processes are necessary in order to survive in the market. It is the people who often have problems with restructuring measures or the implementation of new technologies and processes. The horse-assisted seminar is also very helpful to support the integration of new companies, the merger of firms, and restructuring processes.

Ranch Owner & Sales Manager
Nat. Champ 2011, Top Pro Rider in U.S.

This is by far the most valuable and impactful learning experience. Being able to lead and build a team by using and controlling a horse really gave focus on what confidence and hidden ability I possess.

Thank you,
Ron Allen
Commercial Real Estate Broker

I love horses and I love learning. Combining the two is a great setup for success. Your training taught me so much about myself.
